PROFILE

I'm an easy-to-approach, highly motivated, proactive software engineer with a diverse background. I am passionate about and feel like my transferrable skills could set me apart in the industry. I have dedicated myself to a continuous learning journey, placing high value on workplace culture and staying updated with relevant technologies, as I strive for further advancement in my career.

EXPERIENCE

NAB —Intern Technology

— Jun 2022 - Present

- * **Automated AppDynamics upgrade for all CAS servers:** updated config for custom metrics and identified and resolved issues for Java agent. Collaborated with Kyndryl team for systemd setup.
- * **Participated in yearly DR event:** reviewed and implemented DR tasks, identified potential issues with ADS batch jobs, and collaborated with the computer ops team to avoid impact on ADS batch jobs. Collaborate with the business team for BVT completion.
- * **Security:** continuously remediate vulnerabilities across the assets. Passwords management in Cyberark and Vault. Collaborate with Cyberark/PAM team for verification. License and certificate renewals.
- * **Backup:** Perform various backup tasks including restoration and evidence upload.
- * **Currency:** Automated Azul Java update across all the assets and workstation machines(collaboration with workplace tech team). Ensure compliance with BAU patching processes.
- * **Capacity:** Capacity management including storage and computer resources. Carry out performance tests.
- * **Cost:** Ensure automated cleanup of obsolete resources.

General Assembly—Software Engineering Immersive

— Mar 2022 - Jun 2022

- * Intensive 12-week (500+ hour) full-time software engineering course covering the fundamentals of full-stack software development. Full-stack Projects challenged me to learn more advanced features of a wide variety of technologies.

Comfyhome Heating Cooling(HVAC) — Office Admin / Accounts Officer

— Jan 2017 - Jan 2022

- * In charge of all the stock orders, service technicians' daily timesheets and schedules.
- * Assisting the SEO team in maintaining WordPress websites.

China Merchant Bank —Accounting Officer

— Jul 2010 - Mar 2015

- * Managed daily transactions of small business customers on a face-to-face basis and maintained healthy relationships with customers
